I dont know where the hell you are comming from supporting these sects while calling your selves Atheists  
the actions of the French State are correct in fact if they are to be criticised it is for not going far enough  
and bowing to "freedom Of Religion " arguements from the America a country that is supposed to be secular  
but where in some parts religion is all but compulsory(why do you hgave to go to court and swear on the Bible)  
Sects like scientology are dangerous they do much harm , when people try to leave they are percecuted,others like the JW's dont allow blood transfusions which is a choice an adult has a right to make but children die everyday because of decisions made by their parents.  
I am sick to death of wishy washy right wing humanists who dont even like to call themselves atheists saying we should be respectful to religion- No we should not, we should attack them in every way and make religion something to be dispised  
and simply not tolortated , if the state does not act against sects it is to the deteregment of the people
