To whom it may concern:

Hearing alarming news about the admirable artist and, by his oeuvre, international representative of a historical period far better than ours, Mr. Roman Polanski, who is hounded by despicable US authorities and their willing executioners, exactly because of that reason, we, i.e. the Alliance against Conformity (“Bund gegen Anpassung”), who are publishing the Heretical Letters (“Ketzerbriefe”) in Voltaire’s, d’Holbach’s, Marxian and Freudian tradition as well as the following authors of the AHRIMAN Verlag, do protest in strongest terms against all persecution imposed on Mr. Polanski and demand the immediate stop of any annoyance of his person and priceless artistic activities, esp. his film version of the Dreyfus affair, whatever subterfuge or pressure the above US authorities may produce after the capitulation of the Soviet Union and in due cause the dwindling of the sovereignty of the European states that formerly prevented that hounding for more than three decades.

This appeal may be published everywhere and to anybody. (An analogous letter is sent to Mr. Obama via the US Embassy, Berlin.)

For the Alliance against Conformity,

Rudolf Riegel
